## PROFILE

---

Consistent quota overachievement, \$1.2M against an \$800K target, then 135% of an \$890K target the following year. Three years growing a luxury interior design firm's partnerships, brand, and inbound pipeline. Comfortable owning a territory end to end: building the pipeline, opening new points of sale, and holding relationships from first meeting through installation. Equally credible with a C-level buyer and with a designer specifying a job.
